# Our Enhanced Healing Portfolio

## Negative Pressure Wound Therapy

Medela NPWT stands as a beacon of reliability in medical suction, boasting Dynamic Exudate Removal, crucial for effective wound healing as it actively promotes drainage, reduces the risk of infection, and accelerates the healing process.

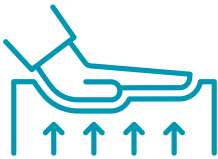

## Biologics

Tides Medical's skin substitute products offer unparalleled effectiveness in promoting wound healing and tissue regeneration. Harnessing the power of naturally occurring growth factors and cytokines, these products stimulate cellular activity and accelerate the healing process.

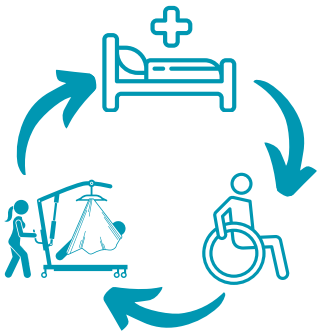

## Softwave TRT

Experience the future of wound healing with Softwave TRT, boasting a cutting-edge design for maximum tissue penetration and fully regenerative healing. This non-invasive therapy accelerates wound recovery and pain reduction beyond standard care methods.

## Therapeutic Support Surfaces

Discover our comprehensive range of therapeutic support surfaces, offering both powered and non-powered options tailored for optimal wound healing. Our surfaces are designed to promote faster recovery and better patient outcomes.

## Specialty Equipment for all Care Settings

Specialty beds, patient lifts, and seating & mobility chairs are vital in daily wound healing across care settings like hospitals, LTC, and assisted living due to their ability to redistribute pressure, minimize friction, and ensure optimal positioning. Promoting safe and effective comfort and mobility, facilitate faster recovery and improve overall patient well-being

# Our Mission is Simple

**Our mission** is straightforward yet powerful:  
**"Healing Wounds and Changing Lives."**

We serve hospitals, private physicians, long-term care facilities, and assisted living centers with a clear objective: to impact lives through **enhanced wound healing** across the care spectrum. Through **collaborative alliances with clinicians**, adoption of **state-of-the-art technologies**, and an unwavering dedication to **exceeding expectations**, we emerge as your steadfast partner in the healing journey.
